

Chain your door, not your pet.

Your pet is more than just an animal with an appetite. He's the first one to welcome you home from a hard day and the last one to see you off every morning. He can smile with his eyes and can sense your sorrow from a mile away. He's a quiet listener during times of despair and your most excited friend during moments of joy. He shares your passions, loves your attention, and lives to make you happy.

At CPS, we understand and value the deeply devoted bond between a pet and his family. We are dedicated to providing your four-legged member of the family with safe, affordable fencing options.

"The greatest pleasure of a dog is that you may make a fool of yourself with him and not only will he not scold you, but he will make a fool of himself, too."

~ Samuel Butler

"The poor dog, in life the firmest friend. The first to welcome, foremost to defend." ~ Lord Byron

Affordable, Customized Options

Investing in a pet fence can be intimidating. Many large-name pet fencing companies rely on this intimidation to sell unnecessary packages, products, and add-ons. At CPS, we provide honest, solid estimates with a variety of options unavailable through our big-brand competitors. We have the freedom to order products based on need, not sneaky sales techniques.

CPS works **with** pet owners to create reliable, reasonably-priced fencing systems designed to enhance your property and the life of your pet.

Let them run free and safely.

Your pets deserve to run, play, and live life at the fullest. A number of hazards exist outside a pet's yard, including traffic, pollution, and other animals. Protect your pet while fulfilling her need to explore with a custom fence from CPS.

Limitless Options >>>

Is your yard on a corner lot? Do you have underground electrical wires or cable? Is your garden in need of protection, too? No problem. CPS can design a fencing system that protects your dog, garden, and favorite TV show. We conduct a thorough inspection of your property to ensure your fence doesn't interfere with your home's electrical circuit and can

install designated no-pet zones for gardens, playhouses, or livestock pastures. Does your dog like to swim in the lake at the end of your property? We can even install electric fences underwater. Tell us what you need and we will make it happen.

Quality Supplies >>>

We offer top-of-the-line fencing supplies for any number of customized fencing options. Pet owners can choose from

rechargeable, battery-operated systems to above-ground fencing. We can create an outdoor pet getaway or a standard pet run; the fencing variations are endless. CPS is an independent fencing business with an array of products to choose from. We buy direct from the supplier to save you money and time.

Cats Too! >>>

Our fencing solutions aren't just for dogs. We can install fences for all pets and animals, regardless of size. We have access to a number of collar options and will work with your pet to find the best fence for his or her needs. Experience the personal, individualized treatment of CPS today!

Locally owned and operated. We take the time to get to know your property and pet!

Finding a fence that's right for you >>>

Pets, like people, have individual personalities, traits, and needs. CPS provides customized solutions that work **with** your pet's temperament and abilities. We assist with training, acclimation, and the stabilization of your new fence and always place your pet's safety and wellbeing at the top of our priority list.
